MABRU FEATURED AT THE 2026 JAPAN INTERNATIONAL BOAT SHOW

by Myranda Goben

Yokohama, Japan, March 2026 — This year, two companies, **KS America Inc. and Outbreak**, featured Mabru collaboratively at the 2026 Japan International Boat Show, expanding their global presence. Both the KS America and Outbreak teams proudly marketed **Mabru's battery-powered marine climate-control solutions** to new audiences within the international marine industry.

INTERNATIONAL REPRESENTATION

Held annually in Yokohama, Japan, the Japan International Boat Show is one of Asia's **leading marine industry exhibitions**, bringing together boat builders, marine suppliers, distributors, and boating enthusiasts from around the world.

The event provides an important platform for **showcasing emerging marine technologies** and innovative products that are shaping the future of the industry.

Representing Mabru and its product lineup together at the show, KS America Inc. and Outbreak highlighted the company's advanced battery-powered marine HVAC units. They connected with attendees interested in efficient, modern climate-control solutions for today's evolving onboard energy systems.

Designed for modern 12V DC platforms and off-grid applications

A SMARTER APPROACH TO ONBOARD COMFORT

As demand continues to grow for quieter, more energy-efficient onboard systems, Mabru's self-contained marine air conditioning solutions offer builders and boat owners a **flexible alternative to traditional generator-dependent cooling systems**.

Designed for modern vessels and off-grid applications, Mabru systems are engineered to deliver reliable performance with low power consumption and simple integration across a wide range of marine platforms.

These partnerships reflect a shared commitment to **product quality, technical excellence, and dependable customer support**. As interest in advanced marine climate systems continues to grow internationally, Mabru values the opportunity to collaborate with experienced partners who share a strong dedication to service, professionalism, and long-term customer relationships.

"Seeing our brand represented as far as Japan is surreal. Our distributors did a great job of setting the show up, and we look forward to supporting them to promote battery-powered air conditioning in their market."

-Nicolas Mabru, President of Mabru

Mabru extends its appreciation to KS America Inc. and Outbreak for representing the brand overseas and showcasing its products at this year's event.
